WPC GLASS HOUSE - SIT - RELAX - ENJOY 'MONSOON' ON RIVER SIDE

Hardik Panchal
HARDY SMITH

WPC exterior grade products are direct replacement of natural wood. Made with Polyethylene or Polypropylene resins in composition with wood powder creates high density wood alike profiles for different applications. As shown in the picture, we have recently installed a turnkey project with all WPC products including WPC Pergolas, WPC Gazebos, WPC Deck floors, WPC Wall cladding, WPC fencing walls, WPC Ceiling and artificial garden. A WPC glass house was installed with a total combination of WPC product varieties. Entire installation was made on 13th floor terrace of Iscon river side on Sabarmati river front, Ahmedabad.

Designed the Glass house is such a way that its 3 sides are installed with hardened glass to give a view open to sky. Once can see entire river and river front stretch seating inside over a sofa. Inside ceiling is made with WPC wall cladding which is mounted in a reverse manner to give an ethnic look of a village home from the bottom. Back wall is mounted with WPC Fencing wall on MS structure. Back wall is mounted with an AC and ceiling is mounted with lanterns to give utility and exotic look, respectively. Sofas are placed inside for a leisure seating and river line view. Entire structure is built specially to enjoy monsoon season.

Site: Nirvana, Iscon river side, Sabarmati river front, Ahmedabad.
